

WE ARE COMMITTED TO MINIMIZING OUR ENVIRONMENTAL IMPACT AND CONTINUOUS IMPROVEMENT OF PROCESSES

SUSTAINABILITY

SUSTAINABILITY

ALL SIMPLYCERAM® COMPONENTS ARE:

PRODUCED FROM SUSTAINABLE SOURCES

LIGHT-WEIGHT, REDUCING THE IMPACT OF PROCESSING AND LOGISTICS

DURABLE FOR A LONG LIFE CYCLE

RECYCLABLE

SIMPLYCERAM® ready-to-install systems embody circular economy principles, offering a solution that satisfies aesthetic and functional needs and prioritizes environmental sustainability.

The raw materials used to produce **SIMPLYCERAM®** are obtained from sustainable sources, ensuring the conservation of non-renewable resources.

A distinct feature of **SIMPLYCERAM®** countertops is their complete recyclability. Once these countertops have reached the end of their lifecycle, they can be entirely recycled into new products, minimizing waste and strengthening the circular economy model.

SIMPLYCERAM® manufacturing process is accomplished by using environmentally friendly methods. This involves the use of renewable energy, energy-efficient machinery, and procedures that minimize waste, all of which help to reduce the carbon footprint associated with production.

Due to their lightweight nature, **SIMPLYCERAM®** countertops require less transportation energy compared to conventional stone countertops. This results in lower carbon emissions minimizing the environmental impact associated with its distribution. **SIMPLYCERAM®** porcelain surfaces provide remarkable durability, ensuring a long product life and reducing the need for replacements.

The ability to easily adapt **SIMPLYCERAM®** on-site reduces the need for complex factories for transformation. **SIMPLYCERAM®** countertops succeed in reducing overall resource consumption while contributing to resource efficiency and simplifying the transformation process.

SIMPLYCERAM® is the future of sustainable home improvement products.

SUSTAINABILITY

CIRCULARITY PLAN

A Sustainable Future for SIMPLYCERAM®

At **Simply Systems**, we take pride in not only **creating outstanding products** that serve the needs of consumers but also **ensuring their responsible end-of-life management be it by disposal or recycling.**

Our comprehensive **Circularity Plan offers sustainable solutions** for **SIMPLYCERAM®** that align with our **commitment to environmental consciousness.**

Here, we explore the options available and highlight the benefits they bring.

Together, we will **lead the way toward a sustainable future with SIMPLYCERAM®**, making a positive impact on the environment.
